KPI Functionality

This report will be formatted as a KPI report and can be displayed on a KPI dashboard.

On

KPI Type

The KPI will measure trend based on scheduled refresh cycles. The should contain the KPI metric, with the option of a categorical field to break the figure down further.

Categorical

Keyed On

Define the category field used to split up the KPI metric.

Demographic

KPI Metric

Define the metric field to be used as the KPI.

Sum Invoiced A...

Desired Trend

The KPI metric should be increasing over time.

Up

Target Type

Provide a static value to be used as a target.

Manual

Target

Provide a value you wish to use as a target.
