The screenshot shows a web application window titled "Step 1: Jasper Report". It contains a "Jasper Report" section on the left and a "Report Options" sidebar on the right. The "Jasper Report" section displays the following information: "The following Jasper Reports XML definition file has been uploaded:", "Name: blah", "File Name: sample.jasper.xml", "Uploaded on: 3 Jan 2012", and "Uploaded by: System Administrator". Below this information is a checkbox labeled "Replace file" which is currently unchecked. The "Report Options" sidebar has a "Report Properties" section with a "Name" field containing "Draft Report" and a "Description" field. Below these is a "Category" section with two dropdown menus, the first showing "Tutorial" and the second showing "Draft". At the bottom of the sidebar is a "Report Data" section with a right-pointing arrow.

10. XML

This screenshot is similar to the one above, but the "Replace file" checkbox is now checked. Additionally, a "File:" label is present next to a text input field, with a "Browse..." button to its right. Below the input field is a "Comment:" label followed by a larger text area. At the bottom right of the main content area, there is a blue link that says "Click here to confirm". The "Report Options" sidebar remains the same as in the previous screenshot.
