Multi-language deployment

Content Translation is enabled, allowing advanced users to provide alternate text to be displayed for additional languages.

On

Languages

Specify the languages users may translate content to.

Afrikaans		
-----------	--	--

English ×
Chinese ×

A screenshot of a configuration panel titled "Multi-language deployment". It contains a section about Content Translation being enabled. Below this is a "Languages" section with a note to specify target languages. A table lists "Afrikaans" as a language option, with a downward arrow and a plus sign icon to its right. Other languages like "English" and "Chinese" are listed with an "X" next to them, indicating they are not currently selected.
